

and then the boy had to move back down to Oklahoma. The same situation is repeating itself this year in another case that just came to my attention. This bill would allow the situation as follows to develop the local school board could under such circumstances say, in your case you've already started the school year. Your family's now moved, you're only going to have one more year; we'll let you finish out but after that if, if he has more years in school he'd have to pay tuition. But nevertheless, it would provide for some flexibility in the situation. I think it's a reasonable, fair, humane thing to do and I think the Education Committee and also the school board, school administrators and school teachers are all in support of the legislation. Ask for your support.

PRESIDENT: Chair recognizes Senator Vickers.

SENATOR VICKERS: Mr. President, members, I rise to support LB 768 as explained by Senator Wesely but I, as I pointed out to this body on an amendment that I withdraw here a week or so ago that the issue addressed by Senator Wesely in LB 768 is one that needs, it needs much study. It needs much more comprehensive action. I do support the, the narrow exception that Senator Wesely is addressing. but I would simply point out one more time that this entire area needs, needs some, some evaluation and that the Education Committee will be doing that along with the School Board Association and others as we progress into this next summer. I do support LB 768 as it is presently drafted because it has caused some severe problems for some folks and I think, I think LB 768 in its present form will, will help to alleviate some of those problems and some of those concerns that some young people have had.

PRESIDENT: Chair recognizes Senator Hefner and then Senator Marsh.

SENATOR HEFNER: Mr. President and members of the body, I would like to ask Senator Wesely a question.

PRESIDENT: Senator Wesely.
